## IISD'S Mission

To establish skill-based learning as a respected, structured, and globally recognized education system that transforms practical competencies into academically validated qualifications.

## What IISD Does

### Designs Programs

Creates standardized skill-based programs aligned with international qualification frameworks

### Approves Institutions

Grants academic association to qualified institutions for program delivery

### Conducts Assessments

Administers centralized examinations to ensure standardized evaluation

### Issues Certificates

Provides internationally recognized certificates with digital verification

## Our Academic Philosophy

### Skill + Structure + Assessment = Qualification

Skills are not validated by experience alone – they are validated by measurable competence, and competence is validated through trusted evaluation. IISD provides the academic framework that transforms informal skill learning into formal, recognized qualifications.
